

Dear Parents and Carers

Welcome to term 4 2024. We hope everyone had a relaxing break. This letter is a brief outline of what your child will be learning this term. Please continue to support your child's learning at home by reading with them every night. As the weather begins to warm up and temperatures between inside and outside vary, clothing is often taken on and off, so please ensure that all of your child's belongings, especially hats, jumpers and water bottles, are very clearly labelled. As a SunSmart accredited school, students are required to wear SunSmart hats outside.

Mathematics

This term, students will be given many hands-on opportunities to understand and explore:

- measurement
- probability

Building on previous knowledge of the four operations: addition, subtraction, multiplication and division.

Specialists

All LSG classes will participate in specialist classes throughout the year including PE, STEM and Art.

Physical Education & Health

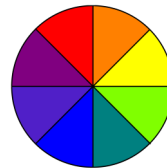

Students will be involved in regular P.E. sessions throughout the week that will focus on the fundamental motor skills. Our health focus will be on how we can be Sun Smart, why hydration is important and how healthy foods help our bodies and brains to grow and function.

English

Our explicit English program is progressing nicely with students engaging in activities focussed on reading, writing, spelling, comprehension, fluency and grammar skills. Through fun and predictable activities and tailored instruction, students have the opportunity to enhance their literacy skills across these domains.

The Arts

This term we will focus on visual arts. In visual arts lessons students will explore how and why artworks are created and ways to use and apply visual conventions, such as line, shape, colour and texture and learn how their ideas can be developed through forms, styles, techniques, materials and technologies.

 Joanne.Pearce@ed.act.edu.au (Team leader)

Science

This term classes will explore the structure of the Earth. They will investigate different types of rocks and minerals and how they are formed.

Students will engage in making models of the earth and forming their very own geode.

Integrated Unit HASS

LSG classes will focus on celebrations around the world. We will investigate how different cultures observe the same and different celebrations and cultural events.

Library

LSGTW and CO will all have a borrowing session in the library on Mondays. Please encourage your children to bring a library bag to school as they will require one in order to borrow books.

W@M—Wellbeing at Macgregor

Our W@M lessons this term will continue to focus on ways to display kindness to others and problem solving during games.
